

Messianism and Kabbalah - Seeing through the Phone

By Peter Hadenwight

Introduction

Eye _____ Foresight _____ Kabbalah _____ point - foreseen. (tragic crash as forcing).

I. Everything Calibrated with Foresight and Seeing through to the Point of Prediction

In fact Kabbalah in Judaism means I have foresight. Like the film *Un Prophete* and *The Journee* by Sirohi, the second film repeats the first which has foresight and handles the gun in a crash of accidental type - it is how to handle that gets Che Guevara sequenced and ready, then Sirohi as well - all of this is foresight and aligned mathematics which then is heroic - the final meeting is then like a film, or novel just a little different - it means the final step is accomplishment of a fact and is not the accomplished fact - this space is retroaction in forcing - it also means that this step is finally the meeting.

II. Forms of Encounter

- I. Tragic Crash in psychoanalysis of love with a true lover or lovers.
- II. Absolute acting - the model nature and behavior when cured.
- III. Revolutionary acting like Guevarism.
- IV. FLN takes.

III. Perception, time, novel - like a crash in *A Beautiful Mind*

Imagine this as mathematics and game theory - it is all about perception and forced change.

- IV. Debating and Sports - On your marks, get set and Go - unpredictable outcomes and chance with racing or debating - Excitement and tragedy - the immanence of failure and success, the tragic act of perception and in fact the outcome as a virtual Potenza of foresight.

I call this waiting for a debate.
